

ICHECK MAGNUM™

Ultra – High Reliability Check Valve

Testimonials

"I had the same iCheck™ installed on my PDQ Laserwash 4000 for four years with no problems. Other check valves either brass or stainless steel lasted from 4 months to one year."

Ed L., owner
Strongsville Laserwash
Strongsville Ohio

"I love the iCheck™. I don't have to worry about my critical check valves failing anymore, and it saves me money because I'm not replacing check valves every year."

Ron N., owner
North Olmsted Laserwash
North Olmsted Ohio

"The iCheck™ is a great product. Somebody finally invented a better mousetrap for car washes."

Mike P, owner
Boston Road Laserwash
Brunswick Ohio

Check valves are critical to delivering a quality wash for your customer. Not only do they protect equipment, they are integral to proper chemical titration and flow.

Car Wash check valves typically have to work under harsh conditions:

- 100,000+ forward / reverse cycles annually
- High and low pH fluid range
- High Pressure
- High Temperature

The **ICHECK MAGNUM™** available in

- 3/4" FPT x 3/4" FPT, 2400 psi max 180°F
- 1/2" FPT x 1/2" FPT, 3000 psi max 180°F
- 1/2" FPT x 1/2" FPT, 2000 psi max 180°F
(For dedicated Low pH / Acid Line)

Features

- Corrosion Proof Body
- Seat Integrated with Valve Body
- One Piece Poppet Seal

Benefits

- Eliminates Corrosion
- No O-Ring Seal to Fail
- No Fasteners to Fail
- Long Life
